

534

ROTARY MANDREL LOADER

The 534 Mandrel Loader is a new innovation of Mitchell Inc. As an add-on to Model 618 or Model 111, it can increase productivity by reducing down time associated with loading and unloading a single mandrel. The 534 Mandrel Loader is custom made to fit your current mandrel size. With 10 total positions, the 534 Mandrel Loader can hold up to 8 mandrels at one time. Once the machine is set, it can run continuously. Increase your productivity with this affordable addition to your machine.
